Objective

Computer Science undergraduate with knowledge of Full-Stack Web Development and a strong foundation in programming. Interested in developing web applications, solving problems, and learning new technologies. Looking for an opportunity to apply my skills, gain practical experience, and grow as a software developer.

Technical Skills

Languages: Java, Python

Frontend: HTML, CSS, React.js

Backend: SpringBoot, Spring Security, Spring AI, REST APIs, Spring MVC, Hibernate / JPA

Database: MySQL

Tools: Git, GitHub, VS Code, Postman, IntelliJ IDEA, Vercel

Cloud & DevOps: AWS (EC2, S3, IAM), Docker, Jenkins

Core Concepts: OOPs, Data Structures, Problem Solving

Soft Skills: Leadership, Communication, Team Collaboration

Languages Known: English, Hindi

Projects

Smart Job Portal

Feb – Apr 2026

Spring Boot, React.js, MySQL, Spring Security, JWT, Gemini API

🐙 GitHub

- Developed an AI-powered full-stack job portal that matches job seekers with relevant opportunities using intelligent job recommendations.
- Implemented secure authentication and role-based authorization with Spring Security and JWT for recruiters and candidates.
- Built REST APIs and integrated MySQL to manage users, job postings, resumes, and application workflows.
- Integrated Gemini AI to provide resume analysis and personalized job recommendations, improving the overall user experience.

E-Commerce Web Application

July – Aug 2025

Spring Boot, Spring MVC, Spring Security, Thymeleaf, MySQL

🐙 GitHub

- Developed a full-stack e-commerce web application enabling users to browse products, manage shopping carts, and place orders.
- Implemented secure user authentication and role-based authorization using Spring Security for customers and administrators.
- Designed RESTful backend services and integrated MySQL for efficient management of products, users, orders, and categories.
- Built a responsive user interface using Thymeleaf, HTML, CSS, and JavaScript to provide a seamless shopping experience.

FoodBuddy

Jun – July 2026

HTML, CSS, Spring Boot, MySQL, Spring Security, REST APIs

🐙 GitHub

- Developing a full-stack food ordering platform that connects customers with restaurants through an intuitive and responsive web interface.
- Building scalable RESTful APIs using Spring Boot for user authentication, restaurant management, menu management, cart operations, and order processing.
- Designing a normalized MySQL database and implementing secure role-based authentication using Spring Security to ensure efficient and secure data management.
- Continuously enhancing the platform by integrating payment gateway support, real-time order tracking, restaurant dashboards, and AI-powered food recommendations.

Education

B.Tech. in Computer Science & Engineering

2023 – Present

LNCT University

CGPA: 7.6

Senior Secondary (XII)

2020 – 2022

Laxmi Narayan Dubey College, East Champaran (BSEB)

Percentage: 82.4%

Secondary (X)

2020

Utkramit M.S. Beldarwa Sirisiya Kala, Adapur, East Champaran (BSEB)

Percentage: 83.6%

Certifications & Achievements

- Selected as a **Finalist** in **Smart India Hackathon (SIH) 2025**, competing among thousands of teams nationwide by developing an innovative software solution for a real-world challenge.
- Earned the **Oracle Cloud Infrastructure 2025 Certified Developer Professional** certification from **Oracle University** (2025), demonstrating expertise in cloud application development, deployment, security, and Oracle Cloud Infrastructure services.
- Completed the **NPTEL Cloud Computing** course conducted by **IIT Kharagpur** (2025), covering cloud computing fundamentals, virtualization, distributed computing, and service models (IaaS, PaaS, SaaS).
- Solved 300+ DSA problems across coding platforms solved **150+ LeetCode problems** ([LeetCode](#)).
